

ESHIA public meeting notes

Date	11.11.03
Time	18.00-18.45
Settlement	Nysh, Nogliki District
Location	Cultural Center
Number of attendees	28

1. A letter was sent to SE with a complaint for bad roads. How do you solve this problem now?

BCC administration is aware of this problem and now considers the ways to solve it.

2. It is difficult to get employed as there is no work here and the positions are advertised only in Yuzhno-Sakhalinsk or Nogliki, and we quite often can't go there and therefore do not know about vacancies.

We do not know what position you'd like to get and can't recommend you anything now, but you can always get info on vacant positions in Nogliki Employment Center. You can leave your application there without being registered.

Request from Nysh residents:

We need a coordinator to work with local people, to collect information on available workforce, and spread information on jobs available (to leave it in the local Administration and Cultural center.
